Boles Construction Promotes Foster to President

March 29, 2010 – Vail, Colorado – Boles Construction announced the promotion Brad Foster to President of the 27 year old company that specializes in mountain custom homes, remodels and condo renovations in Colorado.

Foster, who has been with Boles Construction for 15 years, was most recently the company's Vice President of Operations.

“Brad has a passion for building customer homes that his clients’ love. His ability to integrate sustainable building practices into luxury homes that stand the test of time has helped Boles establish a firm foundation from which to move forward into our next decade in operation. With his experience and leadership, Boles will continue to deliver the value, innovation, and quality our clients demand and deserve,” said John Boles, the company’s founder.

“I’ve spent the majority of my career here at Boles. I can think of no place I’d rather be, and I’m absolutely honored that the company has placed their trust in me to lead us into the next phase of our evolution. It has always been – and continues to be – a privilege to serve our clients in building their dream homes,” said Foster.

Boles Construction is a team of professionals with uncompromising integrity and an unmatched commitment to quality. We promote professionalism, growth and leadership to enrich our relationships with our clients, our architects and our suppliers. We build homes to the highest standards in terms of quality, performance and respect for the environment.

Boles Construction specializes in custom estate homes, multi-unit/condo properties, resort properties, remodels and renovations. For over 27 years, we've been building spectacular projects and have earned a reputation for providing world-class customer service and exceeding our client’s expectations. You can view our work at www.bolesconstruction.com.
